#### EVALUATION (EVALUATION CRITERIA)

- The evaluation will be based on exams and personal work made by the student along the semester.
- During the evaluation process the student must show a minimum and uniform knowledge of all the questions evaluated. Exceptionally, the teacher could ask for an additional and supplementary oral exam to justify the student knowledge.
- The practical lessons are mandatory to pass the subject. The student **MUST ATTEND ALL** the practical lessons and passes the corresponding exam.
- Calls to the practical lessons must be attended by all substitute students at the date and time specified in the call. Students with improperly justified absence during the call will not be call again.
- None of the passed exams will be saved for following academic years or for the September exams, with the exception of the practical exam that can be saved **ONLY** for the extraordinary examination in September.
